#### 4.2 Handling of Incident Management Requests

Before contacting Advance Partner Premium Support team, the Advanced Partner shall firstly perform the technical tests on Services for which the Advanced Partner acquired the necessary skills through OVHcloud Partner Academy / Discovery for support team.

If an Incident is reported, the Premium for Advanced Partner Support team will investigate to identify the root cause of the malfunction and run a diagnostic.

The Advanced Partner agrees to remain permanently available during the diagnostic and through the resolution of the Incident, notably by providing any additional information needed and running all necessary tests and checks, including for its end-user customers' Services.

Under the Incident Management process, OVH and its Affiliates are specifically authorized by the Advanced Partner to connect to the Advanced Partner's hardware or software Services and to perform any operation necessary to prepare the diagnostic.

In the event of an Incident, OVH agrees to provide the Advanced Partner with operational progress updates.

If OVH determines that its Services are available and in good operational order, or that the incident does not fall under OVH's responsibility, OVH shall inform the Advanced Partner.

If it has been determined that OVH is responsible for the Incident, OVH shall finalize the diagnostic and work at restoring the availability of the impacted Services.

OVH must carry out the diagnostic by any means, notably based on discussions between the Parties as well as data from the OVH information system (such as login data), which are admissible by express agreement.

#### **4.3 Limitations**

The Advanced Partner agrees not to abuse Premium for Advanced Partner Support. OVH reserves the right to refuse to take over requests (with the exception of Incident cases) beyond the limit of eighty (80) monthly contacts.

Where this threshold is exceeded, the handling of requests by OVH team may be subject to additional invoicing.

The Advanced Partner shall notably refrain from (i) contacting his appointed points of contact for any service which has not been contracted with OVH and (ii) establishing a relationship between the Premium for Advanced Partner Support team and its own customers or any other third-party listed in the Agreement. The Premium for Advanced Partner Support is not intended to manage the Services on behalf of the Advanced Partner. Moreover, subject to specific provisions applicable to the Services, no support is provided on Third-Party Products.

OVH reserves the right to decline any request that would not comply with the above-mentioned provisions.

After this initial period, the Partner Advance Premium Support is tacitly renewed for successive periods of one (1) month, unless terminated by the Advanced Partner by registered mail with return receipt, at least fifteen (15) days before the end of the initial term or of the renewal current period.

In case the Advance Partner would lose its accreditation as "Advanced" Partner, it would consequently lose the possibility to use and subscribe to Premium for Advanced Partner Support.

#### **Article 6. Non-solicitation of employees**

Each party shall refrain, save with the other Party's prior written authorisation, from directly or indirectly offering to hire any individual employed by the other Party allocated to the performance of the Services subject to this Agreement or from arranging for them to work for it under any status whatsoever. This obligation will remain in effect for a period of twelve (12) months after the end of this Agreement.

Should one of the parties fail to comply with this obligation, it undertakes to compensate the other party by paying it compensation equal to twelve (12) months of the employee's gross salary.
