# SMART MEDICAL

Smart Medical is a livestream day organized by Mext B2B Metaverse on December 06, 2023. The medical technology industry becomes an essential component of the whole care pathway. Advanced technologies such as Smart connectivity, Health Sensors, AI/ML in decision making, robotics, VR/AR/XR are not only improving medical devices but also are opening new perspectives for the care of human beings. In this livestream day, we will develop the use of solutions in the field of mHealth, eHealth, telemedicine, medical devices and wearables augmenting human features and well beings.

**ASK FOR YOUR FREE TRIAL STAND: [contact@mext.app](mailto:contact@mext.app)**
